

《基础生物学》

图书基本信息

书名：《基础生物学》

13位ISBN编号：9787806138779

10位ISBN编号：7806138773

出版时间：1999-8

出版社：上海远东出版社

页数：94

版权说明：本站所提供下载的PDF图书仅提供预览和简介以及在线试读，请支持正版图书。

《基础生物学》

书籍目录

Chapter 1 Studying Biology Introduction Activity 1.1 To appreciate the wonders of the living world Activity 1.2 Learning about biological discoveries
Chapter 2 General Variety of Organisms Practical 2.1 Sorting plants and animals into groups Practical 2.2 Using key Practical 2.3 To construct a key of leaves
Chapter 3 The Basic Structure of a Cell Practical 3.1 Using a microscope Practical 3.2 Microscopic examination of plant cells Practical 3.3 Microscopic examination of animal cells
Chapter 4 Life Processes in a Cell Practical 4.1 Detection of the presence of catalase in plant and animal tissues Practical 4.2 Investigation of the effect of temperature on enzyme activity Practical 4.3 Investigation of the effect of pH on enzyme activity using the starch-agar plate method Practical 4.4 To find out what will happen when sucrose solution is separated from distilled water by a dialysis tubing Practical 4.5 To show osmosis in living plant tissues using potato Practical 4.6 To show osmosis in living animal tissues
Chapter 5 Cell Division and the Levels of Body Organization Practical 5.1 Observation of mitosis as shown in onion root tip squash Practical 5.2 Brief examination of a dissected mammal and an angiosperm to show the complexity of organization
Chapter 6 The Modes of Nutrition
Chapter 7 Food and Humans
Chapter 8 Nutrition in Mammals
Chapter 9 Nutrition in Plants
Hints for Studying and on Assessment(1)
Study techniques
These practicals are considered optional. Working on these experiments may not be essential if teaching time is not sufficient.
