《哈密顿系统指标理论与多解问题（英文）》

内容概要

本书的主要内容为线性系统指标理论的建立及其渐近线性系统多解问题的研究。这些系统包括达芬方程、一维 p -Laplacian方程、二阶哈密顿系统、一阶哈密顿系统及其自伴算子方程等。与法国数学家Ekeland的名著Convexitymethods in Hamiltonian mechanics及其龙以明院士的名著Index theory for symplectic paths with applications主要讨论哈密顿系统周期解不同，本书主要讨论非周期解问题。

书籍目录

- Preface
- Chapter 1 An Overview
- Chapter 2 $Du \pm ng$ Equations ()
 - 2.1 Lazer—Leach's theorem
 - 2.2 A classification theory
 - 2.3 A generalization of Lazer—Leach's theorem
 - 2.4 Landesman—Lazer's condition
 - 2.5 Nontrivial solutions
 - 2.6 Sturm—Liouville BVPs
- Chapter 3 $Du \pm ng$ Equations ()
 - 3.1 Positive linear $Du \pm ng$ equations
 - 3.2 Associated Leray—Schauder degrees
 - 3.3 Asymptotically positive linear $Du \pm ng$ equations
 - 3.4 Limiting cases
 - 3.5 Proof of Theorem 3.4.1
 - 3.6 Proof of Theorem 3.4.2
 - 3.7 Open questions
- Chapter 4 One—dimensional p —Laplacian Equations
 - 4.1 p —triangle functions
 - 4.2 A classification theory
 - 4.3 Associated Leray—Schauder degrees
 - 4.4 Solutions of asymptotically homogeneous equations
 - 4.5 Related problems
- Chapter 5 Second Order Hamiltonian Systems
 - 5.1 Index theory
 - 5.2 Relative Morse index and topological degree
 - 5.3 Existence of solutions
 - 5.4 Multiple solutions for symmetric Hamiltonian systems
 - 5.5 Three solution theorems
- Chapter 6 First Order Hamiltonian Systems
 - 6.1 Index theory
 - 6.2 1 —index and relative Morse index
 - 6.3 Existence of solutions
 - 6.4 Multiple solutions for symmetric Hamiltonian systems
 - 6.5 Ekeland's index and Long's index
- Chapter 7 Operator Equations ()
 - 7.1 Definitions for index and nullity
 - 7.2 Properties for index and nullity
 - 7.3 Solutions of operator equations
 - 7.4 Multiple solutions for symmetric operator equations
 - 7.5 Three solution theorems
- Chapter 8 Operator Equations ()
 - 8.1 Index theory
 - 8.2 P —in
 - 8.3 Ekeland's type of index theory
 - 8.4 Existence of solutions
 - 8.5 Multiple solutions

《哈密顿系统指标理论与多解问题（英文）》

8.6A new reduced functional

8.7The Morse index theory for a'' (u^*)

8.8 Proofs of Theorems 8.5.1 and 8.5.2

Bibliography

Index
