《Wetlands Plants and 》

内容概要

Book Description

145 splendid, black-and-white illustrations in this magnificent archive realistically depict a host of flora and fauna from the wetlands of North America: moose, Florida manatee, river otter, mink, great egret, sandhill crane, marsh wren, bald cypress, swamp rose mallow, and giant foxtail, among others. Ideal for poster art, signs, advertisements, and other graphic assignments.

Book Dimension

length: (cm)27.9
