《学习价值》

内容概要

在线阅读本书

The Value of Learning is a hands – on guide for the implementation of learning and development programs that can be applied across all types of programs, ranging from leadership development to basic skills training for new employees. In this book, Patti Phillips and Jack J. Phillips offer a proven approach to measurement and evaluation for learning and development that can be replicated throughout an organization, enable comparisons of results from one program to another, and ultimately improve ROI.

书籍目录

List of Exhibits, Figures, and Tables. Preface. Acknowledgments. Chapter One: Building a Comprehensive Evaluation Process. Key Questions. Global Evaluation Trends. Measurement and Evaluation Challenges. Benefits of Measurement and Evaluation. The Myths of Measurement and Evaluation. Key Steps and Issues. Stakeholders. Levels and Steps. Chain of Impact. ROI Process Model. Objectives. Evaluation Planning. Data Collection. Analysis. Isolation of the Effects of Learning and Performance Improvement. Conversion of Data to Monetary Values. The Cost of Programs. The Return on Investment Calculation. Intangible Benefits. Data Reporting. Operating Standards. Implementation Issues. Final Thoughts. Chapter Two: Defining Needs and Objectives: Ensuring Business Alignment. The Challenge. Business Alignment Issues. Begin with the End in Mind. Required Discipline. The Needs Analysis Dilemma. THE POTENTIAL PAYOFF. Key Questions. Obvious vs. Not So Obvious. The Reasons for New Programs or Projects. Determining Costs of the Problem. The Value of Opportunity. To Forecast or Not to Forecast. Determination of Business Needs. Determining the Opportunity. Defining the Business Measure-Hard Data. Defining the Business Need-Soft Data. Using Tangible vs. Intangible-A Better Approach. Finding Sources of Impact Data. Identifying All the Measures. Exploring "What If...?". Job Performance Needs. Analysis Techniques. Taking a Sensible Approach. Learning Needs. Subject-Matter Experts. Job and Task Analysis. Observations. Demonstrations. Tests. Management Assessment. Preference Needs. Key Issues. Impact Studies. Levels of Objectives for Programs. Reaction and Planned Action. Learning Objectives. Application and Implementation Objectives. Business Impact Objectives. ROI Objectives. The Importance of Specific Objectives. Final Thoughts. Chapter Three: Measuring Inputs and Indicators. Measuring Input and Indicators. Defines the Input. Reflects Commitment. Facilitates Benchmarking. Explains Coverage. Highlights Efficiencies. Provides Cost Data. Tracking Participants. Tracking Hours. Tracking Coverage by Jobs and Functional Areas. Tracking Topics and Programs. Tracking Requests. Tracking Delivery. Tracking Costs. Pressure to Disclose All Costs. The Danger of Costs Without Benefits. Sources of Costs. Learning Program Steps and Costs. Prorated Versus Direct Costs. Employee Benefits Factor. Major Cost Categories. Cost Reporting. Tracking Efficiencies. Tracking Outsourcing. Tracking for the Scorecard. Defining Key Issues. Input Is Not Results. Reports to Executives Should Be Minimized. The Data Represent Operational Concerns. This Data Must Be Automated. Final Thoughts. Chapter Four: Measuring Reaction and Planned Action. Why Measure Reaction and Planned Action?. Customer Service. Early Feedback Is Essential. Making Adjustments and Changes. Predictive Capability. For Some, This Is the Most Important Data. Comparing Data with Other Programs. Creating a Macro Scorecard. Sources of Data. Participants. Participants' Managers. Internal Customers. Facilitators. Sponsors/Senior Managers. Areas of Feedback. Content vs. Non-Content. The Deceptive Feedback Cycle. Key Areas for Feedback. Overall Evaluation. Timing of Data Collection. Early, Detailed Feedback. Pre-Assessments. Collecting at Periodic Intervals. For Long Programs with Multiple Parts. Data Collection with Questionnaires and Surveys. Questionnaire/Survey Design. Intensities. Questionnaire/Survey Response Rates. Sample Surveys. Data Collection with Interviews and Focus Groups. Improving Reaction Evaluation. Keep Responses Anonymous. Have a Neutral Person Collect the Forms. Provide a Copy in Advance. Explain the Purpose of the Feedback and How It Will Be Used. Explore an Ongoing Evaluation. Consider Quantifying Course Ratings. Collect Information Related to Improvement. Allow Ample Time for Completing the Form. Delayed Evaluation. Ask for Honest Feedback. Using Data. Building the Macro-Level Scorecard. Shortcut Ways to Measure Reaction and Perceived Value. Final Thoughts. Chapter Five: Measuring Learning and Confidence. Why Measure Learning and Confidence?. The Importance of Intellectual Capital. The Learning Organization. The Learning Transfer Problem. The Compliance Issue. The Use and Development of Competencies. The Role of Learning in Programs. The Chain of Impact. Certification. Consequences of an Unprepared Workforce. The Challenges and Benefits of Measuring Learning. The Challenges. The Benefits. Measurement Issues. Objectives. Typical Measures. Timing. Cognitive Levels of Bloom's Taxonomy. Data Collection

《学习价值》

Methods. Questionnaires/Surveys. Criterion-Referenced Tests. Performance Tests. Technology and Task Simulations. Case Studies. Role Playing/Skill Practice. Assessment Center Method. Exercises/Activities. Informal Assessments. Administrative Issues. Reliability and Validity. Consistency. Monitoring. Pilot Testing. Readability. Scoring. Reporting. Confronting Test Failures. Using Learning Data. Final Thoughts. Chapter Six: Measuring Application and Implementation. Why Measure Application and Implementation?. The Value of Information. A Key Transition Time. The Key Focus of Many Programs. The Chain of Impact. Barriers and Enablers. Reward Those Who Are Most Effective. Challenges of Measuring Application and Implementation. Linking Application with Learning. Designing Data Collection into Programs. Applying Serious Effort to Level 3 Evaluation. Including Level 3 in the Needs Assessment. Developing ROI with Application Data. Key Issues. Methods. Objectives. Topics to Explore. Sources. Timing. Responsibilities. The Use of Questionnaires. Progress with Objectives. Relevance/Importance of the Program. Knowledge/Skill Use. Changes with Work/Action Items. Improvements/Accomplishments. Monetary Value. Total Impact. List of Other Factors. Improvements Linked with the Program. Perceived Value. Links with Output Measures. Success of the Program Team. Barriers and Enablers. Management Support. Appropriateness of Program and Suggestions for Improvement. Checklist. Improving Response Rates. Data Collection with Interviews. Types of Interviews. Interview Guidelines. Data Collection with Focus Groups. Applications for Focus Group Evaluation. Guidelines. On-the-Job Observation. Guidelines for Effective Observation. The Use of Action Plans and Follow-Up Assignments. Developing the Action Plan. Successful Use of Action Plans⁴. Action Plan Advantages and Disadvantage. The Use of Performance Contracts. Transfer of Learning. Developing ROI for Level 3. Data Use. Final Thoughts. Chapter Seven: Measuring and Isolating the Impact of Programs. Why Measure Business Impact?. Higher-Level Data. Breaking the Chain of Impact. A Business Driver for Many Programs. Show Me the Money Data. Easy to Measure. Common Data Types. Types of Impact Measures. Hard Versus Soft Data. Tangible Versus Intangible. Scorecards. Specific Measures Linked to Programs. Business Performance Data. Identify Appropriate Measures⁹. Convert Current Measures to Usable Ones. Developing New Measures. The Use of Action Plans to Develop Business Impact Data. Set Goals and Targets. Define the Unit of Measure. Place a Monetary Value on Each Improvement. Implement the Action Plan. Provide Specific Improvements. Isolate the Effects of the Program. Provide a Confidence Level for Estimates. Collect Action Plans at Specified Time Intervals. Summarize the Data and Calculate the ROI. Advantages of Action Plans. Use of Performance Contracts to Measure Business Impact Data. The Use of Questionnaires to Collect Business Impact Data. When You Don't Have a Clue. When the Measure Is a Defined Set. When the Measure Is Known. Response Rates. Selecting the Appropriate Data Collection Method for Each Level. Isolating the Effects of the Program. Identifying Other Factors: A First Step. Using Control Groups. Trend-Line Analysis. Forecasting. Estimates. Use of the Techniques. Final Thoughts. Chapter Eight: Benefits, Costs, and ROI. Why Calculate Monetary Benefits?. Value Equals Money. Impact Is More Understandable. Money Is Necessary for ROI. Monetary Value Is Needed to Understand Problems. Key Steps to Convert Data to Money. Standard Monetary Values. Converting Output Data to Money. Calculating the Cost of Quality. Converting Employee Time Using Compensation. Finding Standard Values. Data Conversion When Standard Values Are Not Available. Using Historical Costs from Records. Using Input from Experts to Convert Soft Data. Using Values from External Databases. Linking with Other Measures. Using Estimates from Participants. Using Estimates from the Management Team. Using Staff Estimates. Technique Selection and Finalizing the Values. Use the Technique Appropriate for the Type of Data. Move from Most Accurate to the Least Accurate. Consider the Resources. When Estimates Are Sought, Use the Source with the Broadest Perspective on the Issue. Use Multiple Techniques When Feasible. Apply the Credibility Test. Review the Client's Needs. Is This Another Program? Consider a Potential Management Adjustment. Consider the Short-Term/Long-Term Issue. Consider an Adjustment for the Time Value of Money. Why Monitor Costs? Why Measure ROI? Fundamental Cost Issues. Monitor Costs, Even If They Are Not Needed. Cost-Tracking Issues. Prorated Versus Direct Costs. Employee Benefits Factor. Major Cost Categories.

《学习价值》

Initial Analysis and Assessment. Development of Solutions. Acquisition Costs. Application and Implementation Costs. Maintenance and Monitoring. Support and Overhead. Evaluation and Reporting. Cost Accumulation and Estimation. Basic ROI Issues. BCR/ROI Calculations. Other ROI Measures. Final Thoughts. Chapter Nine: Intangible Benefits: Measuring the Hard to Measure and the Hard to Value. Why Intangibles Are Important. Intangibles Are the Invisible Advantage. We Are Entering the Intangible Economy. More Intangibles Are Converted to Tangibles. Intangibles Drive Programs. Measurement and Analysis of Intangibles. Measuring the Intangibles. Converting to Money. Identifying Intangibles. Analyzing Intangibles. Customer Service. Team Effectiveness. Cooperation/Conflict. Decisiveness/Decision Making. Communication. Innovation and Creativity. Employee Attitudes. Employee Satisfaction. Organizational Commitment. Employee Engagement. Employee Capability. Experience. Knowledge. Learning. Competencies. Educational Level. Attention. Leadership. 360-Degree Feedback. Leadership Inventories. Leadership Perception. Job Creation and Acquisition. Productivity Versus Job Growth. Importance of Job Creation and Growth. Recruitment Sourcing and Effectiveness. Recruitment Efficiency. Stress. Networking. Final Thoughts. Chapter Ten: Results Reporting. Why the Concern About Communicating Results? Communication Is Necessary to Make Improvements. Communication Is Necessary to Explain Contributions. Communication Is a Politically Sensitive Issue. Different Audiences Need Different Information. Principles of Communicating Results. Communication Must Be Timely. Communication Should Be Targeted to Specific Audiences. Media Should Be Carefully Selected. Communication Should Be Unbiased and Modest. Communication Must Be Consistent. Testimonials Are More Effective Coming from Respected Individuals. The Audience's Opinion of the Program Will Influence the Communication Strategy. The Process for Communicating Results. The Need for Communication. Planning the Communications. The Audience for Communications. Basis for Selecting the Audience. Information Development: The Impact Study. Communication Media Selection. Meetings. Interim and Progress Reports. Routine Communication Tools. E-Mail and Electronic Media. Program Brochures and Pamphlets. Case Studies. Routine Feedback on Program Progress. The Presentation of Results to Senior Management. Streamlining the Communication. Building Scorecards. Reactions to Communication. Using Evaluation Data. Final Thoughts. Chapter Eleven: Implementation and Sustaining a Comprehensive Evaluation System. Why the Concern About Implementing and Sustaining Evaluation?. Resistance Is Always Present. Implementation Is Key. Consistency Is Needed. Efficiency Is Necessary. Implementing the Process: Overcoming Resistance. Assessing the Climate. Developing Roles and Responsibilities. Identifying a Champion. Developing the Evaluation Leader. Establishing a Task Force. Assigning Responsibilities. Establishing Goals and Plans. Setting Evaluation Targets. Developing a Timetable for Implementation. Revising or Developing Policies and Guidelines. Preparing the L&D Team. Involving the L&D Team. Using Measurement and Evaluation as a Learning Tool. Teaching the L&D Team. Initiating Impact/ROI Studies. Selecting the Initial Program. Developing the Planning Documents. Reporting Progress. Establishing Discussion Groups. Preparing the Sponsors and Management Team. Removing Obstacles. Dispelling Myths. Delivering Bad News. Monitoring Progress. Final Thoughts. Appendix: Self-Assessment Test. Glossary. About the Authors.
