《17世纪-19世纪大西洋地区刺绣作品鉴赏》

内容概要

Schoolgirl samplers and pictorial needlework are amongst the most fascinating and sought-after textile collectibles, and this book covers the entire range of the subject on both sides of the Atlantic. Covering pieces from the 17th through the 19th century, this book is much more than just a sampler survey or price guide- it is a master class of appraising samplers.
