《Villas and Saunas in》

内容概要

This book presents a total of 44 individually designed summer villas and saunas in Finland. Representing the best of recent Finnish summer home and sauna architecture, each site is presented in detail through photographs, plans, and text by the architects themselves. Harri Hautajärvi's fascinating text discusses the history and trends of villa and sauna architecture and life, as well as the challenges of sustainable development to holiday-home buildings of the future.

《Villas and Saunas in》
