《玛尼和她的朋友们》

内容概要

Maanii lessons were designed and written to use as a reading primer for beginners of the Thai Language. The stories depict the lives of a young girl named Maanii, her parents, elder brother, relatives, friends, and their pets... Because these lessons are “ authentic ” – written by Thais for educating Thai kids, the aim of the books is two-fold: to teach literacy in Thai and to inculcate traditional Thai cultural values, i.e., a Thai identity: obedience to elders, respect for authority, politeness in speech, dress and social behavior, and basic Buddhist teachings such as generosity and gratitude. As time passes and Thailand evolves into a more inclusive, multi-cultural society, these traditional values will evolve and expand as well. As such, “ Maanii ” preserves a picture of the idealized past.
