For those who would rather design their own meals, they include expert advice for easily creating a customized plan based on your current weight, health status, and goals. They show you the exact portions of carbohydrate-rich foods you can enjoy now to reach those goals and how to increase those amounts to maintain your health and weight for the long haul. Simply by knowing your height, weight, and gender, you can quickly determine how much protein to eat for optimal health-no complicated measurements, charts, or formulas to follow. The Drs.
