《企鹅与蓝色家园Penguin Lit》

内容概要

There's no place like home ...but equally there's no business like show business! For Penguin and Little Blue home is Antarctica and far, far away. They are missing all of their feathered friends and are discovering that show business is such hard work! And the only home comforts in their Kansas hotel are an ice machine and the bathtub! After long days of signing autographs and diving for the spectators, Penguin and Little Blue dream of enjoying the white ice of home along with plenty of ice cakes and ice falls. But how can they escape the world of show business and reach Antarctica?
