《英语作文分类语汇新词典》

前言

近年来，各种英语写作教材、辅导书或范文集等相继出版。这些书籍惠及广大读者，对提高他们的英语写作水平帮助很大。如北京大学出版社出版的《英文模范作文新词典》就是其中很受欢迎的参考书之一，读者普遍反映从中的确受益匪浅。但是，很多读者也发现只研读范文实感美中不足，难免产生只能临渊羡鱼，却难于退而结网的遗憾。这是由于他们的写作语汇量小而被束缚手脚，无法用英语充分表达观点和展示写作技巧。作为教授写作课程的教师，我们在教学中充分认识到这个事实，并尽量设法帮助学生解难。我们深知写作水平的提高终究基于实践之上，只有勤动笔多写才能练就生花妙笔。但是，如果没有掌握较大的语汇量而只在原有狭小语汇范围内反复写，长进仍不会令人满意，必须同时针对具体需要吸收新鲜的积极语汇并将它们用于写作实践之中才能奏效。我们所强调的“积极语汇”意为在日常用语中非常活跃又富于表达力的语汇。我们同时强调“针对需要”地扩大语汇量。因为语汇海洋如此浩瀚，企图通过大撒网捕获的形式而达到迅速增加语汇量目的的努力只会事倍功半，广种薄收，甚至颗粒无收。我们主张记忆新语汇不但要聚焦热点话题，还要根据个人具体需求。这样，新语汇的使用频率才会高，因而记得更牢固，逐渐做到运用潇洒自如，得心应手。这就是我们编写这本《英语作文分类语汇新词典》的宗旨之一。本书分部汇集若干热点话题的常用语汇供读者熟记，并在各部分后面附五至十个有关该话题的不同作文题目的参考范文供读者研读临摹。为适应读者的需要，每个作文题目下都给出三篇范文，各篇的难易程度略有不同。希望这些做法对读者尽快有效地扩大积极的写作语汇量并将其用于写作有所裨益。

章节摘录

Experts predict that food production will increase by a large margin within decades as the world population keeps growing at the present neck-breaking speed. It goes without saying that agriculture will be under pressure to produce more than ever before. China, a developing country with the largest population to feed, has unfortunately become one of the first countries to taste the bitterness of the water shortage problem. Therefore, how to make the land more productive without losing valuable water resources becomes an inevitable challenge that the leadership can't shy away from due to its urgent nature. Scientists in agriculture have developed approaches to solving water shortages. Among them are water harvesting and drip irrigation. They are now in wide use and prove to be more efficient and economical in irrigating farming land. In spite of this, people's awareness of putting water to the best use needs to be raised. It's definitely imperative that people come to the realization that living on borrowed water from future generations is as hideous a crime as a robbery.

范文4.2 Experts predict that food production will increase by a large margin within decades as the world population keeps growing at the present neck-breaking speed. It goes without saying that agriculture will be under pressure to produce more than ever before. The shortage of water, essential to agricultural production, will persist in developing countries like in many years to come. China, a developing country with the largest population to feed, has unfortunately become one of the first groups to taste the bitterness of this problem. Therefore, how to make the land more productive without losing valuable water resources becomes an inevitable challenge that the leadership can't shy away from due to its urgent nature. It is sometimes heard that in some areas water is becoming so scarce that scrambling for water irrigation has resulted in violence.

《英语作文分类语汇新词典》

精彩短评

- 1、很好的书，快递也很快
- 2、没有想象中的好，分类分的不够细，范文占了太多的篇幅
- 3、拿到后翻了一下，感觉很不错，不仅有写作常用词汇，还有范文~有热点话题~~很适合我！
- 4、每一方面都有较详尽的词汇介绍，而且有例文美中不足的是同一方面的例文都比较相似，只有个别语句是换了另一种说法，而且例文与前面的词汇联系不大
